## "GET THE U.N OUT OF THE U.S—NOW" —Stratemeyer

Courtesy of W. S. Davis

Lt. Gen. George E. Stratemeyer, USAF (RET), Winter Park, Florida, is a **FIGHTING PATRIOT**, who received his commission as Second Lieutenant in the Infantry upon graduating from West Point Military Academy in June 1915.

Entering the Air Corps Tactical School-Command in 1930, General "Strat," as he is affectionately known to his friends, graduated in 1932, and in April 1941, was promoted to Executive Officer to the Chief of the Air Corps, serving in this capacity until World War II began.

After Pearl Harbor, General Stratemeyer was promoted to Chief of Air Staff, Army Air Forces, and went overseas in July, 1943, spending 33 months in active service for America and the U. S. Army.

During this tour of duty, he was Commanding General of the India-Burma-China Air Force. In the 1946 reorganization, he was selected to head the Air Defense Command, and in 1948, he was appointed Commander of the Continental Air Command, responsible for the Air Defense of the Continental U. S. A.

In this interim, he was awarded the Distinguished Service Cross by General Douglas MacArthur, under whom General Stratemeyer served in Korea and Japan. He has been awarded the Distinguished Service Medal four times, the Distinguished Flying Cross, Air Medal with Cluster, Victory Medals One and Two, and the Korean Service Medal with Four Stars. In addition, he was decorated by many foreign countries, and is entitled to wear Great Britain's Most Excellent Order of the British Empire in the Knights Commander Degree.

The above is to show that General Stratemeyer has proved his devotion and loyalty to the U. S. A. in many ways, and is entitled to the respect and friendship of the American people. And we believe that his conclusions about the United States, based upon his own investigation of the United States Government's "No Win Policy," are timely—they should be heard—and heeded.

### THE UNITED NATIONS?

"Let's get out of the Godless United Nations, and get the United Nations out of the United States—now."

### CUBA?

"The Cuban situation should not have been allowed to develop! The idea that South American Nations would dislike us, if we blockaded Cuba with the U. S. fleet is poppycock! Real Patriots cannot understand how the Bearded Brute of Cuba CAN SPIT IN UNCLE SAM'S FACE, THEN DARE HIM TO DO ANYTHING ABOUT IT!"

### SOVIET UNION AND SATELLITES?

"Withdraw ALL diplomatic recognition from ALL communistic countries swearing to bury us! Why? Because Our Lord and Saviour, Jesus Christ, warns us to ". . . not cast" our "pearls before swine, lest they turn and rend you (us)!"

Gen. George E. Stratemeyer, Commander United States Air Force in Far East under Gen. Douglas MacArthur.

### WHAT CONSTITUTES THE THREE GREATEST DANGERS TO AMERICA?

"Subversion within our own country; seeking power by our Congress which cannot legally be granted to it by our Constitution, and concentration of power in the executive branch of the government!"

### KENNEDY ADMINISTRATION?

"I am greatly alarmed at the many appointments to key positions in America. The failure of those in authority to have a real anti-communist course of instruction within our Military Forces is dangerous, unwarranted, and a threat to our survival."

(Editors Note: Kennedy has to this date appointed 82 Jews to key positions in the Administration).

### RUSSIANS IN ORBIT?

"In my opinion, they did not put men into orbit, and their claim is merely a campaign of fear—to frighten the American people—to destroy their morale, and persuade us to go along with them and their Socialistic trends, which the last four Administrations have put into effect, or tried to put into effect!"

### WHAT KIND OF POLICY SHOULD WE HAVE?

"A policy of victory—not defeat! Our policy—if we have one—towards the Soviet Union is much too soft. As for Summit Conferences, I never have and never will believe in them. Personally, I would never have any more meetings with Soviet emissaries until the Soviet Union abides by—and proves she does—her written word."

### DUAL SPACESHIP FLIGHT?

"Harry Truman's statement, when interviewed, expresses my sentiment. I agree with Mr. Truman, and you may quote me on that!" The Truman statement at the time was, "The Russians never did tell me the truth, and they've got to show me—before I believe them!"

### WILL THE SOVIET UNION ATTACK US?

"Not externally. I have no fear of them externally! They do not dare fight, because they'd be destroyed also! It is the subversion from within our nation that will bury us—if Khrushchev keeps his promise! If we are buried, it will be from within the United States! Abraham Lincoln so said, and I am convinced he knew what he was talking about."

### IS THERE HOPE OF RESTORING CONSTITUTIONAL GOVT. UNDER GOD?

"Yes! I most assuredly do believe that there is hope of saving America! But first, we must put God and Jesus Christ back into our thinking!"

Now, as the first requisite of our National Preservation did NOT fall from the lips of a Bible Seminary President, nor from the lips of a minister of the Gospel or Theologian, but from the lips of an Air Force General who has "been through the mill" to "win his spurs" the HARD WAY—a Military man who knows the score—we should ALL listen to him.

### HOW?

"Ask God's help through Jesus Christ, and fight from the grass roots to put conservatives (Americans) in Congress, the White House, State Department, and all Government agencies! Remember, Jesus Christ commands us to, "hate the evil, and love the good!"

—Psalm 97: 10.

### FOREIGN AID?

"Cut it ALL out—except to countries or nations which have PROVED they ARE OUR allies—willing to FIGHT and DIE for freedom and THEIR OWN COUNTRIES—NATIONS WHICH ARE ANTI-COMMUNIST ALL THE WAY!"

### AMERICA'S HOPE TODAY?

"Real Christian Faith and the Church Militant. IT IS THE ONLY THING THAT CAN SAVE AMERICA! I ACCEPT JESUS CHRIST AS THE MESSIAH—AS OUR ONLY LORD AND SAVIOUR! Both Mrs. Stratemeyer and myself study the Bible early every morning."

### THE SUPREME COURT'S DECISION BANNING PRAYER, ETC.?

"It is my firm conviction that all Justices should be impeached, beginning with Earl Warren! One of the worst decisions that Court has handed down is the one ruling that a state cannot have an anti-subversive law, when the Constitution itself gives each State the legal authority to have and to enforce anti-subversive laws! Any court decision that over-rides the Constitutionally-granted States Rights is wrong, because we are a Republic of 50 sovereign States, not a Democracy, and are governed by the Federal Government according to Constitutional agreement with the States and the people of

Col. Charles A. Lindbergh

Gen. Douglas A. MacArthur

those States! Any other method of governing is unconstitutional, illegal, unlawful, and plain dictatorship! The people are the Government—not the duly elected and appointed officials! These officials, from the President down, are elected and appointed under the Constitution to carry out, legally and Constitutionally, the laws of the people and States—not the dictates of any Federal agency—from the White House down! Every democracy in history has failed miserably! We are a Republic. Let's keep the U.S.A. a Republic—not a Democracy! Our Founding Fathers made that plain—they said it was a Republic, if we could keep it! Let's prove that we can keep it!

### KOREA?

"They wouldn't let us win," General Stratemeyer emphasized, and levels his own indictment at the White House, United Nations, State Department, and other Governmental agencies. "We were required to lose the Korean War."

### IS THERE A "HIDDEN GOVERNMENT," IN YOUR OPINION, RULING THE VISIBLE GOVERNMENT OF THE U. S.?

"Yes! I do believe there is! I cannot prove it, but—no matter which party is in power, nor whom we elect to the White House, we still have the same socialistic trends predominant in the Federal Government; therefore there must be an 'Invisible Government,' which I knew nothing about until I retired and started checking. When you're in the Service, you obey orders, no matter how you, personally, feel about them."

### PEARL HARBOR?

"Well, from the time General Marshall left his position as Chief of Staff, I believe he played into the hands of the 'Invisible Government.' You can obtain a much more comprehensive statement, if you can secure a copy of the testimony I gave the Senate Subcommittee—the full title is, "Subcommittee to Investigate the Administration of the Internal Security Act and Other Internal Security Laws of The Committee on the Judiciary of the United States Senate, Second Session, 83rd Congress," dealing with Government Departments in August, 1954, the late Hon. Pat McCarran, U. S. Senator, presiding."

### THE CONSTITUTION?

"Article VI, Paragraph 2, of the U.S. Constitution states, 'This Constitution, and the Laws of the United States which

shall be made in pursuance thereof (within the framework of the Constitution); and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme Law of the Land; and the judges in every State shall be bound thereby, anything in the Constitution or Laws of any State to the contrary notwithstanding."

(1). "The United States thus, in my opinion, has no authority not granted the Federal Government 'within the framework of the Constitution'; therefore the Supreme Court cannot make and/or order a court decision outside the Constitution's limit—not without violating their oath to uphold and defend the Constitution from all enemies, foreign and domestic.

(2). Neither the States nor the Federal Government agencies have any legal authority whatsoever to pass Laws, or to uphold and enforce Laws not made within the framework of the U. S. Constitution. Thus, in my opinion, the Supreme Court's decisions are illegal, unconstitutional, and unlawful; and, as we have a Government of the People, by the People, and for the People, we the People have the Constitutional authority to reject all Laws not made within the Constitution's limits—the Supreme Court and all Government agencies to the contrary notwithstanding!"

### COL. JOHN OWEN BEATY

United States Army (Deceased)

Quoting from his world famous book **THE IRON CURTAIN** he argued that Jews had been largely responsible for the success of communism in Russia, that they dominated the Democratic Party and had driven the United States into both World Wars. . . He placed Germany as the "historic bulwark of Christian Europe."

### REAR ADM. JOHN G. CROMMELIN, JR.

United States Navy (Ret.)

"The ultimate objective of the Communist-Jewish conspiracy is to use their world-wide control of money to destroy Christianity and set up a world government in the framework of the United Nations . . . and eliminate all racial distinctions except the so-called Jewish race, which will then become the master race with headquarters in the state of Israel and in the United Nations in New York."

### LT. GEN. PEDRO A. DEL VALLE

United States Marine Corps (Ret.)

"The time has come for the people of the Free State to know that their freedom is in greater jeopardy than it was when George Washington prayed on his knees in

the snow at Valley Forge."

(Our enemies) ". . . have influenced our elected authorities to violate their oath to support the Constitution, illegally surrendering sovereignty, not in their power to surrender, by joining the United Nations Organization."

"And when a soldier of high calibre and character attempts to instruct his troops in the danger of this foul subversion, he is relieved of his command and reprimanded, thus terrorizing others into compliance with policies that lead inevitably to the destruction of this nation as a sovereign power."

"Dictators who are communists are assisted, protected, given arms with which to keep their people enslaved. A dictator who opposes communism and protects his people from this Godless evil soon finds himself deposed, or even assassinated."

"Who are these enemies? Who runs the United Nations? Who runs the Invisible Government of this and most other countries?"

### GEN. DOUGLAS A. MacARTHUR

United States Army (Ret.)

(First Muzzled General)

"It is not of any external threat that I concern myself but rather of insidious forces working from within which have already so drastically altered the character of our free institutions . . . Foremost of these forces is . . . communism. It has infiltrated into positions of public trust and responsibility . . . There can be no compromise with atheistic communism—no halfway in the preservation of freedom and religion. It must be all or nothing."

" . . . I find in existence a new and heretofore unknown and dangerous concept that the members of our armed forces owe primary allegiance and loyalty to those who temporarily exercise the authority of the executive branch of the government, rather than to the country and its Constitution which they are sworn to defend. No proposition could be more dangerous."

"Unless an effort is made to curb or combat the unabashed propaganda of the 'peace' cranks, a score of nations will be ready for the sack of America." (When he was President Hoover's chief of staff.)

"It is for future events to ascertain whether they—the American people—still retain the ultimate authority over government as intended by the Constitution . . ."

"Such a limitation upon the utilization of available military force to repel an enemy attack has no precedent, either in our own history, or so far as I know, in the history of the world." (Korea)

"It seems strangely difficult for some to realize that here in Asia is where the

communist conspirators have elected to make their play for global conquest, and that we have joined the issue thus raised on the battlefield; that here we fight Europe's war with arms while the diplomats still fight it with words."

"Never in our history had we fought a war which we did not carry to victory. There is no other excuse for war. (As America's greatest modern general put it)—**"There is no substitute for victory."** "Our need for patriotic fervor and religious devotion was never more impelling. There can be no... **halfway in the preservation of freedom and religion. It must be all or nothing.** We must unite in the high purpose that the liberties etched upon the design of our life by our forefathers be unimpaired and that we maintain the **moral courage and spiritual leadership** to preserve inviolate that mighty bulwark of all freedom, our **Christian faith.**"

#### COL. CHARLES A. LINDBERGH United States Army

In 1941, before we entered the war, Col. Lindbergh was invited to address a Congressional Committee in Washington. His address was of such wisdom and character that many honest thinkers believed that he was the best qualified man to be President at that time. He said that the real danger to America lay in **Asia, Russia and China.**

He asked why we should **destroy Germany** when Germany should join us in **destroying the Soviet Union.** Destroy Germany by helping England, and then Russia would just **walk in and take over.** He also said that, in letting Germany, England and the communists fight it out alone, Germany would probably win.

The words of **Gen. Albert C. Wedemeyer**, onetime commander of U.S. forces in China, delivered in commemoration of **Lindbergh's flight in 1927**, are important to generations of Americans unborn. Lindbergh revealed to Americans the military and commercial wealth of the skies. He was the great American whose love of country lived on despite the **savage attack by President Roosevelt**, not only against his person but also on his honor as an American.

#### THE STORY OF LINDBERGH'S GREAT WAR JOB

It's about time the story of the **great contributions made by Lindbergh to our country's victory in the air in World War II** should be revealed. Despite the petty vindictiveness of Franklin Roosevelt, the contributions were made possible by military leaders who found a way to bypass the White House venom expressed in the Roosevelt-Hopkins chortle, **"We're going to win this war with our friends."**

Maj. Gen. Charles A. Willoughby

As General Wedemeyer said: **"many men would quit"** after such churlish treatment by a President of the United States. Then he added:

**"But Lindbergh didn't retire to write bitter memoirs or seek seclusion. He worked for his country and for mankind."**

**"Only a few people know what Lindbergh accomplished during the years when he was officially blacked out. And this knowledge is largely confined to the armed forces and the aviation industry."**

**"I think the public is entitled at least to some of the unpublicized contributions in the Lindbergh Odyssey."**

**"When the Japanese hit Pearl Harbor, Col. Lindbergh found it impossible, because of the political climate (FDR's personal antagonism), to participate in the war as a member of the armed forces, so he went to war as a technical representative of the aircraft industry. He went on many missions with Corsairs. He took part in strafing raids; he flew cover bombers and did special bombing, to prove what the Corsair could do."**

#### GEN. GEORGE S. PATTON, JR. United States Army

These statements were made on May 8th, 1945, at the press camp of the United States Third Army in Regensburg, Germany, at a press conference called by **General Patton**, for the American, French and British correspondents.

**"This war stopped right where it started."**

**"But that's not the end of this business by any means. What the tin-soldier politicians in Washington and Paris have managed to do is another story you'll be writing for a long while if you live."**

**"They have allowed us to kick hell out of one bunch and at the same time forced us to help establish a second one as evil or more evil than the first."**

**"We have won a series of battles, not a war for peace. We've headed down another long road to losing another peace."**

**"You cannot lie down with a diseased jackal. Neither can we ever do business with the communists."**

**"The Russians really took us for suckers after we saved their lives."**

**"This day we have missed another date with our destiny, and this time we'll need Almighty God's constant help if we're to live in the same world with Stalin and his murdering cutthroats."**

**"I wonder how the dead will speak today when they know that for the first time in centuries we have opened Central and Western Europe to the forces of Genghis Khan; I wonder how they feel now that**

they know there will be no peace in our times and that **Americans, some not yet born, will have to fight the Russians tomorrow, or 10, 15 or 20 years from tomorrow."**

#### LT. GEN. GEORGE E. STRATEMEYER United States Army (Ret.)

**"May 2, 1957, should bring sadness to every Freedom-Loving American, for on that date America lost Senator Joseph R. McCarthy, one of our greatest fighting sons. Senator McCarthy brought evil (communism) to the attention of the citizens of the United States of America more than any other one American. He was killed by the anti-Christ movement in the world—particularly here in these United States of America. But he was not destroyed. His great Patriotism and Americanism will live on forever."**

**"You get in war to win it. You do not get in war to stand still and lose it. And we were required to lose it. We were not permitted to win."**

#### GEN. JAMES A. VAN FLEET United States Army (Ret.)

General James Van Fleet, back from leading the Eighth Army in Korea and under questioning by Congressional Committees, made these points:

**"A chronic shortage of ammunition has existed until recently in Korea; it sometimes was critical. Nevertheless, U. N. troops were on the way to knocking out the communists when the war was halted in 1951 after truce talks were under way. In the sit-down war that has followed, communists are telling the people of Asia that they have won victory."**

**"My own conviction is that there must have been information to the enemy, from high diplomatic authorities, that we would not attack his home bases across the Yalu."**

#### MAJ. GEN. GEO. VAN HORN MOSELEY United States Army (Deceased)

**"Historians of the future will marvel most of all at the non-resistance of those who had the most to lose."**

**"When a nation embarks on a path of military spending as a means of supporting its economic life, then powerful external enemies become an economic necessity. War scares are an integral part of the technique of promotion. With these weapons statesmen can extract from citizens consent for military outlays when it would be impossible to do so for peace time enterprises. And the most powerful and vocal enemies of public spending—the conservatives—can be drugged with fears of aggression."**

## Military and Freedom

—o— Continued from page 3 —o—

"Today, patriots are smeared and destroyed. Generally the press refers to them as Fascists. The unabridged dictionary describes Fascists correctly when it states that they were Italian patriots who turned out to save their nation from the oncoming Bolsheviks."

"Republics throughout all history have had their birth, their years of vigorous growth, their hey-day of world success, which remained only so long as the race that gave the nation its basic strength, remained pure. With the introduction and interbreeding of lower types, decline came, and finally, national death."

"Upon entering West Point, we took an oath to support and defend the Constitution against all enemies whomsoever. That oath did not become dormant with retirement from active service, and my feeling is that where the Creator gives some of us strength to carry on, we should make a contribution to the defense of our Republic each day, to include that last hour which should find us **"with boots on,"** I hope, at the very end of the trail."

**MAJOR GEN. EDWIN A. WALKER**  
United States Army

"It will be my purpose now, as a civilian, to attempt to do what I have found it no longer possible to do in uniform . . . I must be free from the power of **little men** who, in the name of my country, **punish loyal service to it.**"

"We have sworn no allegiance to any international body or organization, and there is no allowance for any release of our sovereignty, since the Constitution provides none."

"Our oath applies to full sovereignty in America, as provided in the Constitution. It provides for freedom of religion and worship. Today our relation and subordination to the U. N. puts every man signing the oath under a double standard."

"The destruction of our national sovereignty—which continues by United Nations design, with Washington support—must be accomplished from within the United States. It can happen only through dictatorial power, as it did in Russia and Cuba—implemented, as it was done there, by military forces turned upon the people."

**MAJ. GEN. CHARLES A. WILLOUGHBY**  
United States Army (Ret.)

"Because (the Red Chinese) were assured from somewhere in Washington that if they should come over the Yalu, 'it would be under the sanctuary of being immune from any destructive action by our military forces within their own areas; that not even to save the lives of our men or insure the safety of our Army would we permit the Air Force to drop the atom bomb on military targets and enemy installations and troops' . . . That the Red Chinese commander apparently knew such a decision would be forthcoming, while General MacArthur did not, represents one of the blackest pages ever recorded."

**LT. GEN. ALBERT C. WEDEMAYER**  
United States Army

An important part of Gen. Wedemeyer's testimony before the Senate committee in 1951 was this statement:

"My fear is this . . . supposing this enemy, this potential enemy (Russia), used some more powder kegs he has created around his phery. And he were to do that again and again in these various areas; a fruitless effort, militarily, and still the real enemy is not being damaged, but we are suffering seriously, economically. We are beginning to. Economically we are beginning to feel pressures, and we are losing—I cannot emphasize it too much, sir—the finest commodity we have, American manhood . . . . If we pit our manhood against the manhood of our potential enemy, I say to

you, sir, for whatever my military opinion is worth, that we are going to lose . . ."

(Senator John C. Stennis, D. Miss.):  
"Finally lose?"

General Wedemeyer: "Yes sir, . . . I want American ingenuity, I want American technology to protect the things that I hold dear. I don't want to spill American blood all over the battlefields of Europe and the Far East, sir, indiscriminately, and that is my fear."

## LIQUIDATING AMERICA

Reprinted from—

Rockford (Ill.) Morning Star

Behind President Kennedy's July 4 speech at Independence Hall, where Mr. Kennedy plumped for an economic and political alliance with Europe, it is not difficult to see the finger of **Walt W. Rostow.**

Rostow is chairman of the State Department's policy planning board. He is the

Walter Rostow

President's closest advisor on international policy. He is author of the still secret document which is reportedly the master plan for what the New Frontier likes to call **"a bold new foreign policy."**

Rostow personally is on record as saying there will be no victory of capitalism over socialism. His foreign policy master plan is known to contend that the United States must expand its participation in institutions and organizations "which transcend the independent powers of the nation-state."

It was this latter point which Mr. Kennedy supported publicly in his Philadelphia speech. He not only suggested an economic and political alliance with the six-nation European Economic Community; he also argued that the day of American independence was past and that on the basis of "interdependence" we must now "look outward to cooperation with all nations in meeting their common concerns." He said we must expand our international alliances to help "the developing nations throw off the yoke of poverty" and "lift the weight from the shoulders of all." Mr. Kennedy made it obvious he favors progressive merger of separate sovereignties into some larger political unity.

Mr. Rostow and President Kennedy may be willing to surrender the United States and its citizens to a regional or a world government with its accompanying controls, taxes and mob rule, but the American people are not.

In the past 17 years, Americans have given generously of their wealth to help the rest of the world. We have taxed ourselves to the point of absurdity. We have gone along with one administration after another which told us we had to finance higher living standards all around the globe or Communism would triumph for sure. Today Communism is more widespread than ever, and our nation is on the verge of bankruptcy.

At a recent press conference, Mr. Kennedy said he would not want a U. S. European alliance to become **"a rich man's club while the poorer nations get poorer."** Mr. Kennedy and Mr. Rostow obviously favor complete international economic equality. No nation, they contend, has a right to be richer than any other.

Mr. Kennedy may have a personal guilt complex about being rich, but the American people as a nation have no apologies for the economic success we have had. America became rich because its people worked and invented and produced. We prospered because our government left us free to prosper.

Unless Congress puts a halter on Mr. Kennedy, the present administration will lead us into foreign alliances and eventually into a world government whose foreign majorities would be happy to vote to divide our wealth. The Rockford Star does not favor the liquidation of the United States of America.

## Fake Christmas Stamps

The Post Office Department states that for twenty years they have not printed a Christmas stamp for fear they would offend a minority. This year, because of unprecedented demand, they selected four which were presented to Jewish leaders for their decision. One drawing was rejected because the cross pieces in the window pane resembled a cross. The stamp finally selected by the Jews has no suggestion as to Christmas and Christianity. Why have a stamp at all—it was the thousands of Christians who asked that the stamp be printed. Authority for the Jews selecting the stamp for Christmas is the Wall Street Journal, November 9, 1962. 3% of the population does not like Christmas stamps, BUT they do like the Christmas shopping.

## Kennedy Runs Wild

Republished from—

Cincinnati Inquirer—Editorial

The issue is not, as President Kennedy declared in blistering terms Wednesday afternoon, whether the U.S. Steel Corp. showed "utter contempt for the interests of 185 million Americans." It is whether we have traveled so far down the road toward a regimented, totalitarian economy that a private industry that seeks to manage its own affairs thereby invokes the unmitigated wrath of the Federal government and unleashes a barrage of recriminations.
